## Exterior Elevation or Heavy Duty Parking Tile

A beautiful floor is considered by many as the most vital element of construction. It's what any visitor sees first. And most importantly, once laid, a floor seldom changes. It must therefore not only be beautiful but also retain its beauty for years to come. But floors are subject to the daily grind & rigorous of foot traffic and to stains, ink stains, grease stains, etc. Even the best of the tiles will stain if not maintained. Fortunately the situation is not completely futile, we at VITA in tandem with leading research laboratories have found solutions for these irritants.
